1. I would like to begin to understand ^{Agency} our/organization a little bit better. Could you put together a note ^{note} that I could keep in my desk which takes each box on the chart under my desk pad and breaks it down into its immediate subcomponent. For instance, the other day when I went to OWI I find they are divided into five different groups. I would like to have the names of those groups; the names, age and educational background of the head of each group and, if he has one, his deputy also. In short, I would like to, in the most ^{convenient} form you can do it, expand the appropriate boxes on the basic chart one more level. Include with each subcomponent its initials from our guide of acronyms.

Letters to The Times

Support of Shah

Reading about the present crisis in Iran, I marvel at how few letters support the shah's regime—most insisting that our CIA has placed a "fiefdom" of a one-party system in power for the best interests of the United States and the oil cartels.

It is a matter of fact that Shah Mohammed Reza Pahlavi's regime has done more to improve his country than any of the Arab Emirates—whose vast wealth is hauled out of the country to be enjoyed by a disgusting and glutinous "nouveau riche."

If the shah and his government go under, the United States had better be prepared for a radical change in a style of life! The calamity of a choked-off Syria, Iraq and Iran by the Communists—plus the encirclement of Saudi Arabia, Yemen and Oman—would lead us into a conflict that would make Vietnam seem like a bingo game at Leisure World!

I'll opt for the shah and the good work of our CIA any day!
